DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The Information Disclosure Statement, filed February 27, 2004, is acknowledged and has been considered.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Regarding claims 1-5, the phrase "or the like" renders the claims indefinite because the claims include elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claims unascertainable. See MPEP § 2173.05(d).

Allowable Subject Matter

6. Claims 1-5 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 3611

7. The following is a statement of reasons for the indication of allowable subject matter: the prior art neither anticipates nor makes obvious an inverted front fork having an annular groove as recited in an upper periphery of an outer tube and an annular bush attached to the annular groove as recited. The above recitation, combined with the rest of the structure in the independent claim, clearly defines over the art.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Baldomero (U.S. Patent No. 6,036,212), Lin (U.S. Patent No. 5,810,380), Fan (U.S. Patent No. 6,260,870), Tsai (U.S. Patent No. 5,088,705), Simons (U.S. Patent No. 4,561,669), Kinzler et al. (U.S. Patent No. 6,604,886 B2), and Farris et al. (U.S. Patent No. 6,155,541) disclose suspension assemblies having grooves for bushings and/or annular grooves housing seals.
